CHRISTIAN COMMUNITY COLLEGE

Hope & Purpose through Christian Education

STUDENT GRANTS POLICY

Each year Flinders Christian Community College receives requests from students for financial support of a particular event in which they wish to be involved. Such events range from spiritual, sporting, academic, cultural and personal development pursuits. Flinders Christian Community College actively encourages student participation in activities external to those available at school and assists financially in some cases.

All requests for financial support (a Student Grant) are assessed within the following framework:

- Requests for a Student Grant must be forwarded to the Executive Principal in writing at least four weeks prior to the event. Final approval will be given by the Executive Principal following discussion with the College Executive Team
- The activity/event for which the Student Grant is sought must be in keeping with the Christian nature and ethos of the College
- The application for a Student Grant must contain sufficient information for a decision to be reached, but the applicant must also be prepared to verbally elaborate/clarify if/when required
- The Executive Principal will seek advice regarding the application for a Student Grant as deemed necessary
- Application for a Student Grant for state, national and international events will be considered on an equal basis
- Funding levels for successful applications for a Student Grant will be at the discretion of the Executive Principal.

Priority will be given to applications for Student Grants in events which:

- The student represents the College
- The student brings skills back into the College community (this includes areas such as leadership, academic programmes, sporting pursuits)
- The students could not otherwise afford to participate
- When assessing the application for a Student Grant the level of support given to the College by the student during their time at the College will be taken into consideration
- Applications for a Student Grant on a retrospective basis will not be considered.

Successful applications for a Student Grant will be required to provide to the College an invoice for the cost of the event.
