13 - 15 April

Don't miss an incredible 3 days of dancing at Brent Street Studios in Sydney, Australia. Bringing you 15 of our top choreographers and teachers, you'll leave the workshop feeling inspired and pumped, ready to smash Term 2 ahead! We welcome students from all studios across Sydney and Australia to enjoy our Autumn Camp. It's so much more than just dance classes; it's an experience of making friends, a physical challenge and inspiring teachers! Throughout the intensive, teachers will be on the look out for hardworking and fierce dancers to win a scholarship to the 2026 Winter Camp (held in July School Holidays), so be ready to break a sweat! Brent Street is a wonderful place and we are excited to share a little bit of the magic with you at the workshop! See you there!

13 April

Ready to level up your performance skills these school holidays? Our Performance Workshop is your chance to take your love of music to the next stage – literally.

Designed for high school students in Years 10–12 who are serious about honing their craft, this one-day intensive dives deep into what it takes to perform like a pro. You'll rehearse, jam, and create music with other passionate musicians while learning from some of Australia's leading industry mentors at our Sydney campus.

13 April

Step into the world of songwriting and unleash your creativity at our dedicated School Holiday Songwriting Workshop – a one-day intensive created especially for Years 10–12 students who are passionate about music and ready to bring their own ideas to life.

With guidance from AIM academics Dominic Cabusi and Bronte Maree O'Neill, you'll learn directly from industry professionals who write, produce, and perform for a living, and know how to turn an idea into a song that shines.

Together, you'll explore how lyrics, melody, harmony, and rhythm come together to tell your story and express who you are as an artist while also collaborating with other young musicians in a supportive, creative environment.

17 April

Get ready for your final HSC assessments with AIM's HSC Masterclass – a one-day intensive designed specifically for Year 12 Music 1 and Music 2 students who want to fine-tune their pieces, boost confidence, and perform at their best.

Various Dates - Check for your region

The Science and Engineering Challenge (SEC) is a nationwide STEM outreach program presented by the University of Newcastle. Together, they run Challenge Days, Build ME a Future Days (for high school students) and Discovery Days (for primary school students) across every state and territory in Australia.

[Study Engineering - Resources for Students, Parents and Teachers](#)

Engineering is a career for problem solvers. It's a wide and diverse field that touches every part of human life. The vehicles we drive, the electronic devices we use, the buildings we work in and the medicines we take are all products of engineering. This means anyone with interests in virtually any area can be attracted to and enjoy engineering and it's never too early to introduce engineering to young people. Young children can develop an interest in and appreciation for engineering with toys such as Lego, Meccano or even Play Doh.

We've put together some resources for school-age students and teachers to help you foster interest in budding engineers of any age.

Registrations Now Open

Project Submission Deadline - 31 July

Young ICT Explorers (YICTE) is a non profit competition founded by SAP and supported by industry and university partners across Australia. It empowers students in Years 3–12 to solve real world problems or express their creativity through technology. Projects can be developed in class or as extracurricular activities and align with the Australian Digital Technologies curriculum, making a wide range of technology based ideas eligible for entry. Students may work individually or in teams of up to four, with collaboration strongly encouraged.
