Aviation High School  
67 Widdop St, Clayfield

**PRICE \$165**

Early bird pricing  
\$125 available  
until Thursday,  
13th June 2019

**Calling all budding engineers, astronauts and space fanatics!**

Connecting curiosity and imagination with interactive learning experiences, be a rocket scientist these school holidays and discover the wonders of rockets, flight and space technology.

*It's Rocket Science Adventures* offers spectacularly fun project-based STEM investigations to introduce children to the basics of rocketry design, structures, propulsion and flight principles through engineering design projects and challenges. Our junior and advanced programs explore STEM based concepts, suitable for children 8-15 years, where they will design, build and test their own inventions, including our popular project to build and control the launch of your very own water propelled rockets to altitudes over 60 metres high ... all from a simple soda bottle!

For kids  
8-15 years

Any questions email: [bookings@itsrocketscience.com.au](mailto:bookings@itsrocketscience.com.au) or call: 0401 217 052

Notes: Maximum class size is 30. Facilitators have Blue Cards. First Aid kit on site. Outdoor play area for breaks. Children will need to bring a nut-free packed lunch, water bottle, closed in shoes, sunscreen and a hat.

**PLACES ARE LIMITED BOOK TODAY**
