

# Authority for Medical Treatment

---

## Pharmaceutical Administration

An extensive range of pharmaceuticals is available to students should they feel unwell during school hours. The aim is to allow them to feel some relief and hopefully return to class, as opposed to being sent home unwell.

Any substance made accessible will be an **over the counter** formulation, readily available from any pharmacist.

Administration of medication of any kind will be routinely documented and the student's personal medical history and specific requests considered beforehand.

Should a student's condition cause any concern whatsoever, a parent/guardian will be notified.

Where a prescribed medication needs to be administered, authorisation from the parent/guardian will be required in advance.

---

## Authority for Medical Treatment

I [PRINT NAME]: \_\_\_\_\_ give consent to treatment deemed necessary by qualified staff at Woodleigh School for [STUDENT NAME]: \_\_\_\_\_.

In case of medical emergency or accident, I consent to the student being transported to the nearest hospital.
